

Need **TRANSPORT** options? Find the answer **HERE**

TRANSPORT DEVELOPMENT & SOLUTIONS ALLIANCE has developed a set of four self-help guides to assist you in improving transport, access and mobility by giving you the knowledge and lessons learnt in developing the particular transport response that is focus of each guide.

Each manual contains special tips which are based on the lessons learnt by other agencies who have developed such responses. The manuals step the user through what needs to be done to create the transport response that is the focus of each self-help guide, sharing the collective wisdom of other agencies that have developed and used that response.

How each solution ends up looking in any given community will vary as all elements of the response are entirely the decision of your agency.

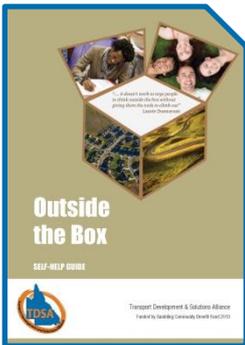

Taxi voucher scheme - A dollar-defined taxi voucher scheme

Offers a solution that utilises your existing taxi operator (or the local school bus operator or charter bus company too).

Services Directory

The content of a services directory can be as varied as the businesses and transport operators in your local community who are prepared to participate in the home-based provision of goods and services.

Outside the Box

This manual explores some different transport solutions or ideas, not all of them focused on vehicle solutions. Within these ideas you may find there is something that may work for your community, or you may find that these ideas lead you to creating your own solution that is unique to your area and the needs that you need to address.

Door-to-door service

A door-to-door transport response offers a solution to people who live within your agency's determined geographic area for this response, the opportunity to have an affordable means of transport, on a regular basis, to a destination(s) decided by your agency as best responding to identified need.

Please tick the box indicating which manual/s you would like to purchase.

Cost

- How to develop a dollar-defined taxi voucher scheme
- Services Directory
- Door-to-door Service
- Outside the box transport solutions
- All 4 manuals
